Pesticide Container Recycling Program

Imperial County
Agricultural Commissioner
Sealer of Weights & Measures

852 Broadway
El Centro, CA 92234

Container Eligibility Requirements

Rigid high density polyethylene (HDPE embossed #2), **55 gallons and smaller**, that previously held products utilized in the **following markets**:

- **Crop Protection** – Containers that held EPA registered crop protection products labeled for agricultural uses.
- **Specialty Pesticides and Fertilizers** – Containers that held EPA registered products labeled for professional Structural Pest Control and for professional application

****RECYCLED CONTAINERS MUST BE IN A TARP COVERED TRAILER. ****

Drop off only during Event Hours.
NO DUMPING!!

Container Eligibility Requirements

Before containers (jugs and drums) can be accepted for recycling, they must be:

- **Triple Rinsed**— Be free of all residues after use. Only dry, residue-free rinsed containers are accepted at collection sites. All empty pesticide containers must be in compliance with 3CCR 6684
- **Parts and Caps**—Non-HDPE parts such as caps, metal handles and rubber linings cannot be recycled, and should be disposed of as normal solid waste. Do not put a cap back on a rinsed container.
- **Label and Booklet Removal** - Labels and booklets will interfere with the recycling process and should be removed.

Containers That Are Not Allowed

- Any container constructed of anything other than HDPE, rotationally molded containers, mini-bulk, intermediate bulk containers (IBC), totes.

 **Acceptable**

Container, thread, and lip are clean

 **Not Acceptable**

Dried formulation on container
